**Subject:** RE: PM10 Exceptional Event Demonstration after the Comment Period

Thank you for the information, and no worries on the response time. First day back after extended time off is always super-busy...and even though my second day, ultimately what is also keeping me from responding to my emails until now. Management here wanted me to go ahead and submit yesterday, so good to know that we got the address correct. I am not certain I know how to use specs, but I can check here to see if those who have submitted exceptional events previously are up to speed. If I can't get the answer from anyone, I may have to trouble you for some additional guidance. Thanks again for your help, and Happy New Year!

Thank you,  
Tim

Hi Tim,

Sorry for the delay in getting back to you. This is my first day back in the office since before the Holidays so lots to catch up on. Yes the address you have is correct for Jeff. You will also need to submit the final draft into specs for exceptional events. Let me know if you need anything else and Happy New Year!

Josh

**Subject:** PM10 Exceptional Event Demonstration after the Comment Period

Hi Josh,

We have the version of a PM<sub>10</sub> exceptional event demonstration from after the comment period (We had previously sent the draft version to the EPA.) close to being finalized. I just wanted to make sure that this submittal would still be the same as what we did for the draft which we sent to you and Cc'd Jeffrey Robinson. I believe there is also a portal to which things can be submitted, so I wanted to make sure we could email instead of using the portal. Also, I anticipate we will be submitting some type of cover letter which will have an address at the top. For the notification letter, we had previously submitted this to:

Jeff Robinson  
Branch Chief, Air Permitting, Monitoring, and Grants  
US Environmental Protection Agency  
1200 Elm Street, Suite 500 (MC 6ARP)  
Dallas, TX 75270

For this completed demonstration, if we are submitting to you directly, could you please provide any information that may be different from what we used in addressing the letter to Jeff?

Thank you very much for your assistance.

Thank you,  
Tim
